THE BOSS

When God made man and there was only the one, the various parts of the body argued about who would be the Boss. The hands said they should be, because they did the work. The feet thought they should be, because they took men to where he could do the work and get food. The stomach thought it should be, because it digested the food. The heart thought it should be, because it pumped blood that allowed the food digested by the stomach to reach the body. The brain said, "No, I have to send all the signals to get each of you to do your job, therefore, I'm Boss." The asshole said, "I'll show you who's Boss" and clogged up and wouldn't let anything pass. After a few days, the stomach ached, the heart was about ready to stop pumping blood, the hands were practically helpless, the feet could not carry the body, the brain's signals were being ignored.- TO ALL THIS THERE IS A MORAL- YOU DON'T HAVE TO BE A BRAIN TO BE A BOSS--
JUST AN ASSHOLE.
